

President's Message

May 2024

As an added service to the Code of Conduct Policy that we already have in place, the AAEA Executive Board has approved the establishment and implementation of a Reporting Lockbox. This initiative will allow members to log allegations of harassment, discrimination, and retaliation involving other members via an encrypted, time-stamped online tool. It will provide members with a confidential avenue to document incidents and offers prevention and support measures. Key features will include a privacy policy, user authentication, and account management. We will share more information as we iron out the logistical details, including the development of the online lockbox system. The AAEA Board has also approved a proposal to hold an Early Career Mentoring Workshop in Davis, CA in December 2024. Thank you and congratulations to the Mentoring Committee for receiving a NIFA conference grant funding for this workshop.

AAEA representatives met with leadership of the National Agricultural Statistics Service (NASS) a few weeks ago to discuss recently announced program changes that include the discontinuation of the July Cattle report and the Cotton Objective Yield Survey, as well as all County Estimates for Crops and Livestock beginning with the 2024 production year. In addition, NASS has announced changes for the following programs: Citrus, Field Crops, Livestock, Mushrooms, Non-citrus Fruit and Tree Nut and Vegetables. In many cases, the program changes include a reduction in the number of individual states that will be reported. We reiterated the critical importance of NASS data and voiced strong concerns about the impacts of the survey discontinuations and program changes. NASS stressed that the decision to discontinue these surveys and reports was not made lightly but was necessary given appropriated budget levels for FY 2024. They hope to be able to reinstate discontinued/reduced programs if the budget situation is better in FY 2025. We will also be sending a letter to the House and Senate Agriculture Appropriations Subcommittees regarding the impacts of the NASS program changes and reiterate the need for sufficient funding in the FY 2025 appropriations process.

I hope you will be able to join our annual meeting in New Orleans in late July. We will have a fantastic set of sessions including:

- [8 pre/post conference workshops](#)
- [2 luncheon sessions](#)
- [4 plenary sessions](#)
- [6 invited paper sessions](#)
- [1 invited case study papers](#)
- [78 track sessions allocated to AAEA Sections](#)
- [15 organized symposia sessions](#)
- 75 selected paper presentations and lightning sessions

We will also be adding up to two additional virtual-only sessions per Section that will take place either before or after the 2024 annual meeting dates. The AAEA Business Office will assist with scheduling and promoting these virtual sessions.

The [Gordon Rausser Keynote Address](#) will be given by Aaron Clauset (University of Colorado, Boulder) who will talk about faculty hiring and how faculty hiring networks shape the production and spread of scientific ideas. [The Presidential Address](#) will be given by Tim Beatty (UC Davis) who will talk about putting people at the center of agricultural economics. [The Fellows Address](#) will be given by Bruce McCarl (Texas A&M University). He will talk about climate change and the economic issues related to agricultural adaptation and mitigation. [The Galbraith Forum](#) speaker will be Catherine Wolfram (MIT) who will discuss the future of US climate and energy policy. Please take note of the new time for the Galbraith Forum (11:45 am on Tuesday, July 30).

Other events during the AAEA meetings include:

- [Undergraduate Recruitment Fair](#)
- [Employment Center](#)
- [Committee & Journal Meeting](#)
- [Section Business Meetings & Events](#)

We will also be celebrating our new class of [2024 AAEA Fellows](#): Titus Awokuse, Oral Capps, Jr., Steven Deller, Rachael Goodhue, Tom Marsh, and Alfons Weersink. Being designated an AAEA Fellow stands as the highest honor conferred by the AAEA.

Thank you to Mike Boehlje (Professor Emeritus, Purdue University) for establishing an endowment for a new AAEA fellowship program in agribusiness management. The purpose of this Fellowship is to provide financial support for PhD students with an interest in agribusiness management. The goal is to support the education of graduate students for faculty positions in agricultural/applied economics academic departments in the critical area of agribusiness management. See <https://www.aaea.org/trust/special-purpose-funds/boehlje-agribusiness-management-fellowship>

Thank you.

Rudy Nayga

The 2024 AAEA Room Block is OPEN

[New Orleans Marriott](#)

555 Canal Street
 New Orleans, LA 70130
 (504) 581-1000

Guest Rooms for Single/Double \$179 per room per night

Taxes are a total of 16.2% (9.45% State Tax, 5% Federal Tax, and 1.75% Tourism Tax) plus a \$3 per night occupancy fee.

Please reserve your room using the following link: <https://book.passkey.com/e/50476455>

Cut-off Date: Thursday, June 27, 2024 or when sold out.

Please note that all annual meeting sessions and the majority of activities will take place at the Marriott.

Register Now for the 2024 AAEA Annual Meeting!

You may register for a Pre- and Post-conference Workshop while registering for the annual meeting or by calling the AAEA Business Office at (414) 918-3190.

	Early Bird (by End of Day Tomorrow)		Advanced (June 1-July 18)		On-site (July 19 and after)	
	Member	Non-member	Member	Non-member	Member	Non-member
Graduate Student	\$105	\$300	\$140	\$335	\$180	\$380
Professional	\$475	\$650	\$560	\$720	\$635	\$795
Senior	\$365	\$505	\$450	\$580	\$525	\$655
Guest	\$75		\$75		\$75	

**Guests include any interested party not professionally in or a student of the fields of agricultural or applied economics, or a related discipline. Guest fees include the welcome reception, plenary sessions, and all concurrent sessions (Guests under the age of 16 are free, and don't need to register).*

**Cancellation: Cancellations of meeting registrations are subject to a \$50 processing fee. After July 5, no refunds will be given for meeting registrations or special event tickets. To cancel your Annual Meeting registration and/or special event tickets, contact the AAEA Business Office at (414) 918-3190 or info@aaea.org. Website: www.aaea.org. If AAEA cancels the meeting any paid meeting registration fees will be fully refunded.*

AAEA Business Meeting

Date: Monday, July 29, 2024

Time: 8:00 am–8:30 am

Room: Acadia

AAEA's annual Business Meeting will be held during the annual meeting in New Orleans on Monday, July 29 in the Acadia room at the New Orleans Marriott. This meeting gives members the chance to hear about the state of the association. Updates will be given by the AAEA President, the Finance Committee, and the AAEA Trust Committee. Additionally, Board members and Editors who are completing their terms will be recognized for their service. Lastly, those in attendance will be given an opportunity to voice any questions or concerns that they may have. We hope you'll join us in New Orleans. [View the Agenda](#)

Preview of AAEA 2024 Annual Meeting Workshops & Luncheons

Pre-registration for Pre- and Post-conference Workshops and Luncheons are required before the annual meeting. You may register for a Pre- and Post-conference Workshop while registering for the annual meeting or by calling the AAEA Business Office at (414) 918-3190.

Register for the 2024 Academic Bowl

Each year, SS-AAEA sponsors an academic bowl competition for undergraduate students at the [AAEA Annual Meeting](#). Students compete on teams of three, which are affiliated with their school. The finals of the competition are held immediately preceding the AAEA Awards Ceremony, with an audience of all meeting attendees. The winning team receives \$500.

The Academic Bowl Competition will be held on Monday, July 29 at 8:00 am – 2:00 pm followed by The Finals at 5:30 pm to 6:00 pm prior to the Awards Ceremony at the [2024 AAEA Annual Meeting](#).

[Read more >>>](#)

Register for the 2024 AEM-GSS Case Study Competition

The Agribusiness Economics and Management (AEM) – Graduate Student Section (GSS) Case Study Competition allows graduate students to test their communication skills and their ability to apply their knowledge of agricultural economics and agribusiness to practical situations.

Each team must complete the 2024 AEM-GSS Case Study Registration Form by **June 16, 2024**. Teams can be comprised of up to three graduate students. Students may either compete as a team from the same university or partner with students from other universities. If there is only one student from a university that wants to participate, the student can compete on their own; or they can be matched with other students.

Call for Papers:

Special Issue: Artificial Intelligence and Data Analytics Use in the Classroom and Academy

Deadline: June 30, 2024

Applied Economics and Teaching Resources is calling for manuscripts about the use of artificial intelligence (AI) and data analytics in undergraduate and graduate education in the classroom and across the academy. Submissions of case studies, teaching and extension scholarship and research, educational innovations and methods, extension education innovations and methods, and commentaries about use of artificial intelligence, including use of large language models (LLMs) and platforms, such as ChatGPT, Bing AI, Bard, amongst other, and data analytics in undergraduate and graduate education, extension education, and other learning venues in institutions of higher learning. This special issue is open to a wide array of topics related to artificial intelligence and data analytics across the agricultural and applied economics and agribusiness and management economics disciplines. Topics may include but are not limited to innovative use of AI and data analytics in the classroom; innovative data analytic teaching modules and teaching case studies; teaching case studies about the impact of AI on agriculture, the agricultural industry and society; ethical and academic

concerning the use of AI in the academy; assessments of AI for different learning outcomes and tasks; and use of AI and data analytics in extension education programming.

Special Issue Timeline:

If you are interested in making a submission to the special issue, please submit a 300 word abstract to Dr. Jason Bergtold (bergtold@ksu.edu) by **June 30, 2024**, at the latest. The abstract should describe the overall theme/topic of the manuscript, how it relates to the special issue call, and how it can be used for educational purposes. Your abstract will be reviewed once submitted and you will then be informed if you will be invited to submit a submission to the special issue.

Full papers for accepted abstracts must be submitted through AETR at www.aetrjournal.org. All papers will go through a double-blind peer review process and be available online via Advanced Access for readers once accepted. All submissions will need to follow the AETR submission guidelines at: <https://www.aetrjournal.org/contribute/submission-guidelines>. If you have questions about the special issue, please email the special issue editors.

Call for Papers

Special Issue: Designing Agribusiness Education for Changing Student Demographics and Employer Needs

Deadline: June 30, 2024

Applied Economics and Teaching Resources is calling for manuscripts related to agribusiness education and curriculum. Agribusiness programs are simultaneously grappling with changing student demographics and evolving employer needs. Continued consolidation across all agricultural sectors means that fewer students are growing up on farms and ranches than in previous generations. Additionally, automation and technological change are rapidly transforming agricultural supply chains. This change has contributed to a growing gap between the skills and knowledge sets that agribusiness programs prioritize and what employers within the food supply chain value (Johnson, Downey, and Holcomb, 2023). Agribusiness programs must both broaden their appeal to students without an agricultural background and adapt curriculum to ensure students are given the tools they need to thrive after graduation. Programs that achieve these objectives will help empower the next generation of problem solvers to grapple with increasingly intricate challenges within the food value chain. Departments that cannot meet these objectives may experience decreased enrollment and struggle to place graduates.

We are seeking submissions that address the following concerns:

- **General Decline in College Students Nationally and Changing Backgrounds:** Agribusiness programs face enrollment challenges from two fronts. First, declines in the population that is college age, along with growing skepticism of higher education from the public, will shrink the pool of students attending a university at the national level. Second, fewer students are growing up on farms and ranches each year, which shrinks the pool of students that traditionally formed the cornerstone of agribusiness programs. To avoid declining enrollment, agribusiness programs will need to appeal to a wider demographic of students. This is likely to create challenges in instruction and require content to focus on skills, as well as agriculture specific content. Research contributions could include curriculum aimed at addressing this change or analysis aimed at measuring this change and predicting its impacts on recruitment.
- **Disparity in Defining Agribusiness Bounds:** There has been a growing discussion over the identity of agribusiness as a discipline. There are increasing employment opportunities in parts of the supply chain far from the farm gate, but agribusiness programs risk losing their core competencies if they

become too general. Individual departments may have responded to this question in unique ways. Thus, having a discussion on what programs offer in their curriculum in terms of courses, electives, concentrations, experiential learning, or opportunities for learning outside of the classroom would be illuminating.

- **Generational Gaps:** Each generation grows up exposed to different social and cultural landscapes than previous generations. These changing experiences can impact the average skill and deficiency levels students within an age group have for various topics (e.g. stronger technological savvy than the previous generations but weaker communication skills on average). Discussions of necessary adjustments to the curriculum in order to leverage generational strengths and help refine generational skill gaps would benefit the future positioning of agribusiness programs. A few examples of topics within this vein include work that measures these generational changes or work that presents pedagogical contributions for addressing them in the classroom.
- **Evolving Employer Needs and Trends:** Personal characteristics and essential (or soft) skills draw top billing by the agribusiness profession when evaluating graduates for potential employment. However, the business and economic knowledge held by graduates still remains a high priority for agribusinesses. Agribusinesses have also started putting more emphasis on the lower ranked areas of technical knowledge, computer skills, and work experiences. This presents a challenge for programs on how to balance developing graduates skills and knowledge while maintaining limited credit hours. Perspectives and practices that speak to how programs can shift classes, curriculum, or teaching methods to help students to be competitive in the job market and valued by agribusiness hiring personnel would push the academy forward to meet the future challenges. Particular interest will be given to work that highlight insights from industry shareholders or provides survey results.

We expect this special issue to facilitate a discussion of innovative ideas aimed at supporting recruitment, curriculum and course development, teaching methods, and outreach to industry. By addressing these issues, agribusiness programs can ensure that graduates are well-equipped to meet the challenges and opportunities of the 21st-century agricultural sector and food supply chain. This special issue would serve as a valuable resource for educators striving to shape the future of agribusiness education. Authors are encouraged to submit any type of work that fits within the four categories discussed. The special issue will have three guest co-editors Dr. Tanner McCarty (tanner.mccarty@usu.edu), Dr. Anastasia Thayer (awthaye@clemsion.edu) and Dr. Aaron Johnson (ajjohnson@ksu.edu) in addition to the AETR Editor, Dr. Jason Bergtold (bergtold@ksu.edu).

Special Issue Timeline:

If you are interested in making a submission to the special issue, please submit a 300 word abstract to Dr. Anastasia Thayer (awthaye@clemsion.edu) by **June 30, 2024**, at the latest. The abstract should describe the overall theme/topic of the manuscript, how it relates to the special issue call, and how it can be used for educational purposes. Your abstract will be reviewed once submitted and you will then be informed if you will be invited to submit a submission to the special issue. Full papers for accepted abstracts must be submitted through AETR online by December 31, 2024. All papers will go through a double-blind peer review process and be available online via Advanced Access for readers once accepted. All submissions will need to follow the AETR submission guidelines at: <https://www.aetrjournal.org/contribute/submission-guidelines>. If you have questions about the special issue, please email the special issue editors.

65TH Annual Conference of the Food Distribution Research Society

The Food Distribution Research Society is soliciting abstracts for the upcoming conference in Puerto Rico October 20–22, 2024. We are excited for the opportunity to meet and discuss research, extension and teaching programs related to any food distribution area, from the farm gate through retail to the consumer. This year's theme is Resilient AgriFood Systems! Please submit your proposals by June 15, 2024 to FDRSVPResearch@gmail.com

For more information on Call for submissions, registration and hotel visit our website [2024 Puerto Rico Conference](#).

NBER Conference on Competition in the US Agricultural Sector

To promote research on competition in the agricultural sector and the consequences of the industrial organization of this sector for consumers as well as input suppliers, the National Bureau of Economic Research, with support from the Economic Research Service of the US Department of Agriculture, will convene a research conference in Cambridge, Massachusetts, on December 12, 2024. The conference will be organized by James MacDonald (University of Maryland) and Fiona Scott Morton (Yale University and NBER).

More details on the conference may be found at this link: <https://www.nber.org/calls-papers-and-proposals/competition-us-agricultural-sector>. The deadline for submissions is **September 3, 2024**, and submissions should be of complete, or nearly complete, papers.

VIII Beeronomics Conference

The 2024 Beeronomics Conference will take place at University of Milan Bicocca, Italy, 19–22 June. Main panels and sessions will be held at the University of Bicocca main campus located in the heart of the city. The Conference Organising Committee, led by Christian Garavaglia, welcomes all high-quality research on the economics of beer and brewing. With a strong interest in interdisciplinary research, we are looking for submissions covering topics including:

- Trends and driving forces in local and global beer production, consumption, distribution
- Management, marketing, market structure and industrial dynamics
- Individual beer choice and health
- Policy and regulation
- Impact of beer on society and culture
- Environmental issues affecting beer and brewing
- Others: food industry and alternatives to beer

Please find the official Conference Flyer/Call for Paper attached. Additional information about abstract submission and event details can be found on the conference's webpage: <https://beeronomics2024.unimib.it/>

If you have additional questions, please do not hesitate to contact: beeronomics2024@unimib.it. If you know of someone who might be interested in attending the conference, please pass this message on and as ever, apologies for cross-posting.
